

HemCon® Bandages: The Right Care at the Moment of Need

Wilderness first responders and emergency medical professionals deserve the best tools available to stabilize a patient. HemCon offers front line defense for severely bleeding wounds in first response emergency care.

STOP THE BLEEDING, SO IT WON'T STOP YOU!

Designed with front line response in mind, HemCon dressings are as at home with wilderness medical teams as they are with military medics. Whether the patient has been in a climbing, back country skiing, or other critical accidents, HemCon® Bandages are a versatile companion to all wilderness medical professionals.

The U.S. Army carries HemCon as an integral part of each soldier's individual first aid kit. The time has come for it to be in yours.

STOPS BLEEDING FAST

HemCon dressings stop bleeding within 2-5 minutes, doing its share to keep emergency teams moving.

ON THE SPOT SOLUTION

Available in different sizes and configurations, the HemCon product line is ready for action when every second counts.

WORKS IN EXTREME CONDITIONS

Waterproof packaging and practical bandage format allow for a controlled application even in extreme weather situations such as snow and wind storms.

LIGHT, PORTABLE, READY WHEN NEEDED

Individually packaged, sterile, flexible dressings to fit in your wilderness first aid kit.
